We Bridge the Gaps So You Can Move Forward

Employment Services

PCSI equips you with the tools to find and keep meaningful employment. We offer personalized pre-employment support like resume building, job search assistance, on-site employer events, interview coaching, credentialing programs, and more.

Food and Nutrition

PCSI's Food Pantry is open Monday to Friday, 10am to 4pm. Customers can visit once a month. We also hold cooking classes and occasional pop-up events with partners across the city!

Reentry Services

If you have a record, PCSI is here to help you take the next step. We provide information about applications for record sealing, expungement, and pardons. Just reentered the community? We have support to help you find stable employment, secure housing, and access the resources you need.

Roadmap

Roadmap is PCSI's long-term coaching program designed to guide qualifying customers toward lasting financial stability and economic growth. With personalized support for up to five years, we're with you every step of the way as you make your way toward your goals and dreams.

Assistance & Navigation

PCSI connects customers to vital programs like Dollar Energy Fund and Rent Rebate to help stabilize household finances. If we can't assist directly, we will connect you to trusted partners and help navigate barriers so you don't have to face challenges alone.

Trainings & Workshops

PCSI offers a wide range of practical training programs and workshops - from financial empowerment to parenting - designed to help you strengthen your household, grow your skills, and move toward a more secure future.

Housing List

PCSI's monthly Housing List is here to support you in your search for safe, affordable housing. With over 100 confirmed rental listings from across the region, you'll have reliable options to explore, so you can find the right place to settle in and feel at home.

Work Ready

Work Ready (ETANF) program participants can select PCSI through the County Assistance Office (CAO) to receive a range of services with a human-centered focus to move toward economic stability.
